SUMMARY

Frontend developer and UI/UX designer (Figma) with hands-on experience building responsive websites and React.js interfaces for real clients. Currently a Frontend Web Developer at BK'S Tech Solutions, having built around 10 websites and web projects, mostly in WordPress (Divi Builder) with custom HTML, CSS and JavaScript, plus a React + Material UI CRM and membership management system. Actively building depth in modern JavaScript and React, and looking for an entry-level or internship role to grow as a frontend developer in a product-focused team.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript

Frameworks & Libraries: React.js (fundamentals), Material UI (MUI)

CMS: WordPress, Divi Builder

Design: Figma, UI/UX design for web applications

Practices: Responsive & mobile-first design, reusable components, SEO best practices, performance optimization, UI/UX principles

Currently Learning: React Hooks, React Router, Axios, Redux Toolkit, Tailwind CSS, TypeScript, Next.js, Git & GitHub; strengthening JavaScript fundamentals through daily problem solving

EXPERIENCE

Frontend Web Developer **Apr 2025 – Present**

BK'S Tech Solutions

- Build responsive websites, landing pages and web applications using HTML5, CSS3, JavaScript, React.js and WordPress (Divi Builder).
- Built around 10 client websites, mostly in WordPress (Divi Builder), extended with custom HTML, CSS and JavaScript.
- Design UI/UX for web applications in Figma and build the designs in code, from layout to final interface.
- Work directly with clients to turn business requirements into user-friendly, visually appealing interfaces.
- Apply SEO best practices, performance optimization and mobile-first design so sites work well on every device.
- Collaborate with the development team to deliver scalable web solutions.

PROJECTS

Windreamway CRM & Membership Management System (Live) windreamway.com

React.js, Material UI, JavaScript, Node.js, Express.js

- Built a responsive CRM frontend to manage customers, promoters, chapters, memberships, payments and lucky draw operations.
- Developed admin dashboards with advanced filtering, searchable data tables, pagination and PDF report generation using Material UI.
- Created reusable, scalable components following a consistent design system for easier maintenance.
- Worked with the backend team to integrate APIs, authentication and business workflows.
- Contributing to a role-based membership system with payment tracking, SMS notification support and admin controls.

BK's Tech Solutions Website (Live) bkstechsolutions.com

WordPress, Divi Builder, HTML, CSS, JavaScript

- Developed a responsive company website with clear service pages and call-to-action sections to improve user engagement.
- Optimized for mobile responsiveness, performance and SEO.

EDUCATION

BSc in Computer Science **2020 – 2025**

NIE First Grade College, Mysuru
